

DIY BIRD FEEDER

THINGS YOU WILL NEED:

- Peanut Butter
- Birdseed
- Toilet paper tubes
- 20 inches of yarn, or ribbon
- Spoon
- Paper plate

DIRECTIONS:

1. Make sure to remove all of the excess paper that may be stuck to your toilet paper roll.
2. Spread peanut butter over the outside of the cardboard tube as if you were icing a cake.
3. Pour the seed into the plate and roll the tube around, pressing the seeds in as you go.
4. Re-roll the tube so that any empty spaces where seeds have dropped can be filled in.
5. Thread the yarn or ribbon through the opening of the tube and tie the top in a knot.
6. Hang up in a tree and watch the birds flock.
